## Section 2: EX-99.1 (EXHIBIT 99.1)

### First Internet Bancorp Reports Fourth Quarter and Full Year 2018 Results

Highlights for the fourth quarter include:

- **Net income of \$3.6 million, including a \$2.4 million pre-tax write-down of legacy OREO, compared to \$3.5 million in the fourth quarter of 2017**
- **Diluted earnings per share of \$0.35, or adjusted diluted earnings per share of \$0.53 excluding the OREO write-down**
- **Total loans increased \$625 million from December 31, 2017, or 29.9%, and \$223 million from September 30, 2018, or 8.9%**

**Fishers, Indiana, January 23, 2019** - First Internet Bancorp (the "Company") (Nasdaq: INBK), the parent company of First Internet Bank (the "Bank"), announced today financial and operational results for the fourth quarter and full year ended December 31, 2018. Net income for the fourth quarter of 2018 was \$3.6 million, or \$0.35 diluted earnings per share. This compares to net income of \$6.3 million, or \$0.61 diluted earnings per share, for the third quarter of 2018, and net income of \$3.5 million, or \$0.41 diluted earnings per share, for the fourth quarter of 2017.

The fourth quarter's results included a \$2.4 million pre-tax write-down of commercial other real estate owned ("OREO"). Excluding this charge, adjusted net income for the quarter was \$5.5 million and adjusted diluted earnings per share was \$0.53.

For the twelve month period ended December 31, 2018, net income was a record \$21.9 million and diluted earnings per share were \$2.30 compared to net income of \$15.2 million and diluted earnings per share of \$2.13 for the twelve month period ended December 31, 2017.

"First Internet Bancorp had another successful year during 2018 as we reported record annual net income, driven by full year loan growth of 30%, excellent credit quality and well-managed expenses," said David Becker, Chairman, President and Chief Executive Officer. "We generated strong growth in both commercial and consumer loans, particularly in a number of our specialty lending areas, including single tenant lease financing, public finance, healthcare finance and horse trailer and recreational vehicle lending.

“Looking to 2019, we continue to see opportunities to expand our market share across our collection of specialty lending franchises, as well as adding new areas of lending to further diversify and improve our revenue mix. We continue to take a disciplined approach to capital deployment and will actively manage the balance sheet to drive profitable growth,” Becker added. “As always, I would like to thank the entire First Internet team who worked very hard to deliver these record 2018 results. Their dedication and efforts will continue to be the key to our ongoing growth and success.”

#### **Net Interest Income and Net Interest Margin**

Net interest income for the fourth quarter of 2018 was \$15.4 million, compared to \$16.0 million for the third quarter of 2018. On a fully-taxable equivalent basis, net interest income for the fourth quarter was \$16.9 million, compared to \$17.3 million for the third quarter. Net interest income was flat on a reported and fully-taxable equivalent basis, when compared to the fourth quarter of 2017.

Total interest income for the fourth quarter of 2018 was \$31.8 million, an increase of 5.4%, compared to the third quarter of 2018, and an increase of 29.3% compared to the fourth quarter of 2017. On a fully-taxable equivalent basis, total interest income for the fourth quarter was \$33.3 million, an increase of 5.5% compared to the third quarter, and an increase of 27.2% compared to the fourth quarter of 2017. The increase in total interest income compared to the third quarter of 2018 was driven primarily by a \$158.7 million, or 5.2%, increase in average interest-earning assets. Compared to the linked quarter, the yield on interest-earning assets for the fourth quarter was flat at 3.90% as increases in the yields earned on securities and other earning assets were offset by a decline in the yield earned on the loan portfolio, including loans held for sale. The decline in the yield earned on the loan portfolio was due primarily to significantly lower prepayment fees.

Total interest expense for the fourth quarter of 2018 was \$16.4 million, an increase of 15.3%, compared to the third quarter of 2018, and an increase of 77.1% compared to the fourth quarter of 2017. The increase in total interest expense compared to the third quarter of 2018 was driven primarily by a \$104.0 million increase in average interest-bearing deposit balances, combined with the effect of a 19 basis point increase in the cost of funds related to those deposits. Deposit costs were impacted during the quarter by the continued rise in short term interest rates as well as the use of longer duration structures to mitigate long term interest rate risk. In addition, the average balance of Federal Home Loan Bank advances increased by \$60.4 million and the interest rate on those advances increased by 16 basis points compared to the third quarter of 2018.

Net interest margin ("NIM") was 1.89% for the fourth quarter of 2018, compared to 2.06% for the third quarter of 2018 and 2.35% for the fourth quarter of 2017. On a fully-taxable equivalent basis, NIM decreased 16 basis points to 2.07% for the fourth quarter of 2018, from 2.23% for the third quarter of 2018, and was down from 2.59% for the fourth quarter of 2017. Compared to the linked quarter, the decline in NIM was due primarily to the higher cost of funds during the quarter and the decline in loan prepayment fees.

#### **Noninterest Income**

Noninterest income for the fourth quarter of 2018 was \$2.0 million which was essentially flat when compared to the third quarter of 2018, and down from \$2.5 million for the fourth quarter of 2017. During the fourth quarter, the Company had seasonally lower revenue from mortgage banking activities as mandatory pipeline volumes were down compared to the third quarter of 2018, which was offset by increases in gain on sale of loans and other noninterest income. The increase in gain on sale of loans was due to the Company selling \$15.4 million of seasoned single tenant lease financing loans at a slight premium to par.

#### **Noninterest Expense**

Noninterest expense for the fourth quarter of 2018 was \$12.7 million, compared to \$10.0 million for the third quarter of 2018 and \$9.7 million for the fourth quarter of 2017. The increase from the third quarter was due primarily to a \$2.4 million write-down of two commercial OREO properties. The revaluation of the OREO was driven by deteriorating conditions in the market where the properties are located and the commencement of a marketing strategy to move the properties off the Company's balance sheet.

#### **Income Taxes**

The Company reported an income tax benefit of \$0.3 million for the fourth quarter of 2018, compared to income tax expense of \$0.7 million and an effective tax rate of 10.6% for the third quarter of 2018 and \$3.5 million and an effective tax rate of 50.2% for the fourth quarter of 2017. The income tax benefit reported in the fourth quarter of 2018 is primarily related to the write-down of the OREO properties. When excluding the income tax benefit related to the OREO write-down, the Company's adjusted effective income tax rate was 3.1%, reflecting the continued growth in the public finance portfolio and the proportion of tax-exempt income relative to overall total pre-tax income.

## **Loans and Credit Quality**

Total loans as of December 31, 2018 were \$2.7 billion, an increase of \$222.6 million, or 8.9%, compared to September 30, 2018 and \$625.0 million, or 29.9%, compared to December 31, 2017. Total commercial loan balances were \$2.0 billion as of December 31, 2018, an increase of \$163.8 million, or 9.0%, compared to September 30, 2018 and \$462.0 million, or 30.2%, compared to December 31, 2017. The growth in commercial loan balances was driven largely by production in public finance, healthcare finance and single tenant lease financing.

Total consumer loan balances were \$708.4 million as of December 31, 2018, an increase of \$46.6 million, or 7.0%, compared to September 30, 2018 and \$150.4 million, or 26.9%, compared to December 31, 2017. The growth in consumer loan balances was driven primarily by increased draw-downs on residential construction loans and production in portfolio residential mortgages, horse trailers and recreational vehicles.

Total delinquencies 30 days or more past due increased to 0.15% of total loans as of December 31, 2018, up from 0.02% as of September 30, 2018 and 0.05% as of December 31, 2017. The increase in delinquencies was due primarily to one seasoned residential mortgage loan with an unpaid principal balance of \$3.1 million and a collateral value of \$5.3 million based on a recent appraisal. Overall credit quality remained solid as nonperforming loans to total loans remained low at 0.03% as of December 31, 2018, compared to 0.01% at September 30, 2018 and down from 0.04% as of December 31, 2017.

The allowance for loan losses as a percentage of total loans was 0.66% as of December 31, 2018, compared to 0.67% as of September 30, 2018 and 0.72% as of December 31, 2017. The decline in the allowance as a percentage of total loans was due primarily to the continued growth in the public finance portfolio, as well as growth in the residential mortgage portfolio, as these loan categories generally have lower loss reserve factors than other loan types.

Net charge-offs of \$0.3 million were recognized during the fourth quarter of 2018, resulting in net charge-offs to average loans of 0.05%, compared to 0.04% for the third quarter and 0.06% for the fourth quarter of 2017. The provision for loan losses in the fourth quarter was \$1.5 million, compared to \$0.9 million for the third quarter and \$1.2 million for the fourth quarter of 2017. The increase in the provision for loan losses compared to the third quarter of 2018 was driven primarily by the loan growth discussed above.

## **Balance Sheet Management**

To increase asset sensitivity and reduce long term interest rate risk, the Company maintained its asset hedging strategy that was initiated in the fourth quarter of 2017. As of December 31, 2018, the Company had a total notional value of \$435.9 million of pay fixed / receive variable interest rate swaps in place to hedge public finance loans, representing 61.7% of the total public finance loan balances outstanding. Including \$88.2 million of notional value interest rate swaps in place to hedge fixed rate investment securities, the Company had swaps with a total notional value of \$524.1 million in place at the end of the fourth quarter of 2018 to effectively convert long term fixed rate assets to variable rate and mitigate the impact of higher short-term interest rates on deposit and funding costs.

The Company also maintained its liability hedging strategy using pay fixed / receive variable interest rate swaps, extending the duration of short term FHLB advances and brokered variable rate money market deposits to lessen the impact of future short term interest rate increases on deposit pricing. As of December 31, 2018, the Company had \$210.0 million of notional value interest rate swaps related to these funding sources. Similar to the asset hedging strategy, these swaps are intended to improve asset sensitivity and reduce long term interest rate risk.

## Capital

As of December 31, 2018, total shareholders' equity was \$288.7 million, increasing \$1.0 million, or 0.3%, compared to September 30, 2018, primarily due to the net income earned during the quarter. Tangible book value per share increased to \$27.93 as of December 31, 2018, from \$27.80 as of September 30, 2018 and \$26.09 as of December 31, 2017.

In connection with the announced stock repurchase program, the Company repurchased 10,897 shares during the fourth quarter at an average price of \$19.83 per share. Subsequent to quarter-end, the Company repurchased an additional 17,101 shares at an average price of \$23.07.

The following table presents the Company's and the Bank's regulatory and other capital ratios as of December 31, 2018.

## **Forward-Looking Statements**

This press release may contain forward-looking statements with respect to the financial condition, results of operations, trends in lending policies, plans, objectives, future performance or business of the Company. Forward-looking statements are generally identifiable by the use of words such as "believe," "expect," "anticipate," "plan," "intend," "estimate," "may," "will," "would," "could," "should" or other similar expressions. Forward-looking statements are not a guarantee of future performance or results, are based on information available at the time the statements are made and involve known and unknown risks, uncertainties and other factors that could cause actual results to differ materially from the information in the forward-looking statements. Factors that may cause such differences include: failures or breaches of or interruptions in the communications and information systems on which we rely to conduct our business; failure of our plans to grow our commercial real estate, commercial and industrial, public finance and healthcare finance loan portfolios; competition with national, regional and community financial institutions; the loss of any key members of senior management; fluctuations in interest rates; general economic conditions; risks relating to the regulation of financial institutions; and other factors identified in reports we file with the U.S. Securities and Exchange Commission. All statements in this press release, including forward-looking statements, speak only as of the date they are made, and the Company undertakes no obligation to update any statement in light of new information or future events.

## **Non-GAAP Financial Measures**

This press release contains financial information determined by methods other than in accordance with U.S. generally accepted accounting principles ("GAAP"). Non-GAAP financial measures, specifically tangible common equity, tangible assets, tangible book value per common share, tangible common equity to tangible assets, return on average tangible common equity, total interest income - FTE, net interest income - FTE, net interest margin - FTE, adjusted income before income taxes, adjusted income tax provision, adjusted net income, adjusted diluted earnings per share, adjusted return on average assets, adjusted return on average shareholders' equity, adjusted return on average tangible common equity and adjusted effective income tax rate are used by the Company's management to measure the strength of its capital and analyze profitability, including its ability to generate earnings on tangible capital invested by its shareholders. Although management believes these non-GAAP measures are useful to investors by providing a greater understanding of its business, they should not be considered a substitute for financial measures determined in accordance with GAAP, nor are they necessarily comparable to non-GAAP performance measures that may be presented by other companies. Reconciliations of these non-GAAP financial measures to the most directly comparable GAAP financial measures are included in the table at the end of this release under the caption "Reconciliation of Non-GAAP Financial Measures."
